dragonflaiqa.com — Portfolio

CORE SKILLS

QA & Testing

Manual Testing, UAT, Integration, API Testing (Postman, SOAP UI), Regression, Smoke, E2E, Accessibility, Defect Management

Release Management

Release Planning, Cutover Execution, Risk & Change Management, CAB Coordination, Deployment Strategy, Hotfix & Rollback Procedures

AI-Augmented QA

AI Test Design, LLM Output & Hallucination Testing, GitHub Copilot, Claude AI, Applitools Visual AI, Postman AI, Sentry AI, Jira AI, TestRail AI

Tools & Platforms

Azure DevOps, Jira, Confluence, ServiceNow, BrowserStack, Charles Proxy, SQL Server, DB2, AS/400 (IBM i)

Languages & Methods

SQL, Python, Selenium, Playwright, AS/400 RPG/COBOL, REST/SOAP APIs, Scrum/Agile

LANGUAGES

Spanish — Native (C2)
English — Advanced (C1)

CERTIFICATIONS

ISTQB Foundation Level (2017)
Scrum Master Certification (2021)

EDUCATION

B.A. in IT Management
Universidad del Valle de México
Mexico City, 2010

INDUSTRIES

Banking · Fintech · Insurance · Enterprise · Consumer Goods

PROFESSIONAL SUMMARY

Senior QA Engineer and Release Manager with 14+ years in banking, insurance and enterprise platforms (Citi, HSBC, BBVA, Banorte, AXA, UL Solutions) and 5+ years leading production releases. Specialized in UAT, API and integration testing, cutover and change management for regulated environments, including legacy AS/400 systems. Combines hands-on manual testing with AI-driven validation (Claude AI, Copilot, Applitools, Sentry AI) to accelerate test design and catch what traditional automation misses. Has led 25+ production releases with zero major rollbacks, and builds and ships AI-powered products and QA tooling of her own.

WORK EXPERIENCE

Senior QA Engineer / Cutover Manager — TechBridge (UL Solutions)

May 2025 – Present | Consumer Product Testing Portal — multisite enterprise deployment

- Reduced the active bug backlog by 40% in six weeks through structured triage and AI-assisted defect clustering
- Introduced AI-assisted test design with Copilot and Claude AI, reducing test creation time
- Used Applitools Visual AI to detect UI inconsistencies across multisite deployments
- Built initial Python smoke automation for dev/QA environments
- Coordinated risk assessment, dependency mapping and CAB approvals; managed ServiceNow change requests and pre/post-cutover activities

Azure DevOps · Postman · Claude AI · Applitools · Sentry AI · Jira AI · ServiceNow

Globant — Citi & HSBC

Feb 2018 – May 2025 | Promoted from Senior QA → QA Lead → Release Manager

Release Manager & Senior QA Engineer — Citi

Apr 2022 – May 2025 | Account Opening Website — automated customer validation and approval workflows

- Defined release schedules and roadmaps with stakeholders; primary contact for release communications and release notes
- Designed 500+ test cases enhanced with AI-generated edge cases
- Used AI tools to analyze logs, cluster defects and accelerate root-cause identification
- Coordinated automation and manual QA teams; applied Applitools visual testing for cross-browser UI consistency
- Tracked change requests in ServiceNow and coordinated pre/post-cutover dependencies across teams

Release Manager & Senior QA Lead — HSBC

Apr 2021 – May 2022 | Global Banking Application — Java multi-country platform deployed in 8+ regions

- Delivered 10+ releases with zero major production incidents across multi-country rollouts
- Improved the app store rating from 4.2 to 4.7 stars through rigorous pre-release QA cycles
- Directed release readiness, hotfix deployments and rollback procedures for time-sensitive incidents
- Prepared CAB submissions, secured approvals and led post-release monitoring

Senior QA Tester — Citi

Feb 2018 – Apr 2021

- Led UAT and integration testing, owning timelines and deliverables

- Acted as Senior Tester, Defect Manager and Release Manager, overseeing defect resolution and release processes

Jira · Postman · SQL Server · ServiceNow · Azure DevOps · Applitools · Scrum

Test Lead — MTP

Jan 2016 – Jan 2018

- Led black-box, functional, regression and API testing; designed test cases and ran UAT cycles

Senior Tester — Cinte / IBM (Banorte)

Jun 2013 – Jul 2014 | “Sumando” project

- Tested 300+ new banking services and products with zero post-release defects
- Validated AS/400 systems with SQL and SOAP UI

Earlier Experience

Senior Tester — Praxis (AXA Seguros)

May 2012 – Jun 2013

Junior Tester — Intermec (PepsiCo)

Jan 2011 – Mar 2012

Junior Tester — Hildebrando (BBVA)

Feb 2010 – Dec 2010

PRODUCTS & AI QA PROJECTS

DragonflAI QA Toolkit — Node/Express dashboard with 7 QA agents, built for my own QA audits: test generation (UI and API), accessibility and UX/UI review, structured bug reports and automated Word audit reports.

EnseñAI (enseñai.com) — Generative-AI EdTech platform that adapts any topic to 8 learning styles. Designed and tested prompts to reduce hallucinations and keep educational accuracy.

Dragonflai Events (dragonflaievents.com) — AI event planner generating timelines, budgets and digital invitations with RSVP. React, Netlify, Stripe, Claude API.

DragonflAI Labs (dragonflailabs.com) — Personalized gift PWAs installed from the browser; offline-first, Stripe checkout, delivery by link or QR.
